

Strategic Plan

2026 - 2029

Our Vision is to improve the health of our community through equitable access to high-quality primary health care services.

Our People

Foster a Thriving and Supported Workforce

We will foster a supportive workplace culture where our people feel valued and able to thrive.

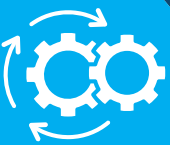

We will pursue opportunities to expand our primary care workforce.

Our Community

Advance Equity-Driven Care

We will advance equity-driven care by providing accessible, high-quality primary care services for our community.

Our Processes

Optimize Service Capacity and Access

We will optimize service capacity and access through data-driven decisions and continuous quality improvement.

Our Partners

Strengthen Integrated Care Systems

We will continue to strengthen relationships with system partners to build a strong foundation for integrated care.

We will leverage system partnerships to expand patient access to specialized services.
